Barbeque & Chili

REAL BBQ

Where does REAL BBQ come from?

- 100 yards of good, old fashioned barbeque pits. Meat is loaded into the hickory charcoal pits in the afternoon and spends all night slow-cooking until it's tender and smoky. Sound simple? It is.

- The finest all natural ingredients

No smoke flavored additives here! That smoky aroma and taste comes from real hickory smoke.

- Taste experts who know what BBQ lovers want

We offer the best tasting vinegar and tomato based varieties available.

Just one taste and you'll know what we're talking about. You'll appreciate the consistent quality and easy prep – and your customers will appreciate the unbeatable flavor and value.

Chopped – made from shoulder cuts, retains the most moisture and flavor. Good for plates and ideal for sandwiches.

Pulled – made from shoulder and ham cuts, just like you would get at a real pig pickin'. Good for sandwiches and ideal for plates, very meaty!

Family owned and operated for 3 generations, Brookwood Farms, Inc. carries its tradition of great food into the twenty-first century with same enduring commitment to quality and taste that made Brookwood Farms the first choice of Barbeque lovers all over America.
